## Growing Together

### WIDE TRAILED PRECISION PLANTER

**JULIA**

#### **GREAT PLANTING CAPACITY AND ACCURACY!**

It is surprisingly efficient, able to seed thousands of acres in a short time, delivering all the economic and organizational benefits associated with the use of a single machine. JULIA is the new MASCHIO GASPARDO flagship, with impressive operational capability, defined by the 24 seeding units for a 18-foot workpiece and a flexible chassis with a total incline stroke of 10 degrees.

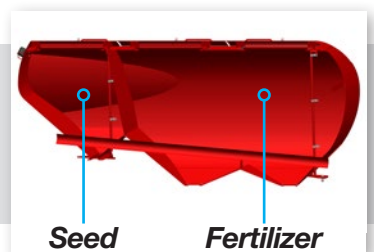

#### **New frame concept**

- 24 planting units: great work capability
- 3 meters transport width: easy closing and road homologation
- Telescopic hopper wheels: reduced soil compaction
- Flexible toolbar: 10° overall inclination run

#### **Pressurized and centralized hopper**

- Hopper divided into two compartments: seed and fertilizer
  - Three large top windows: easy load with big bags
- Centralized blower and vacuum system: best performances

Seed

Fertilizer

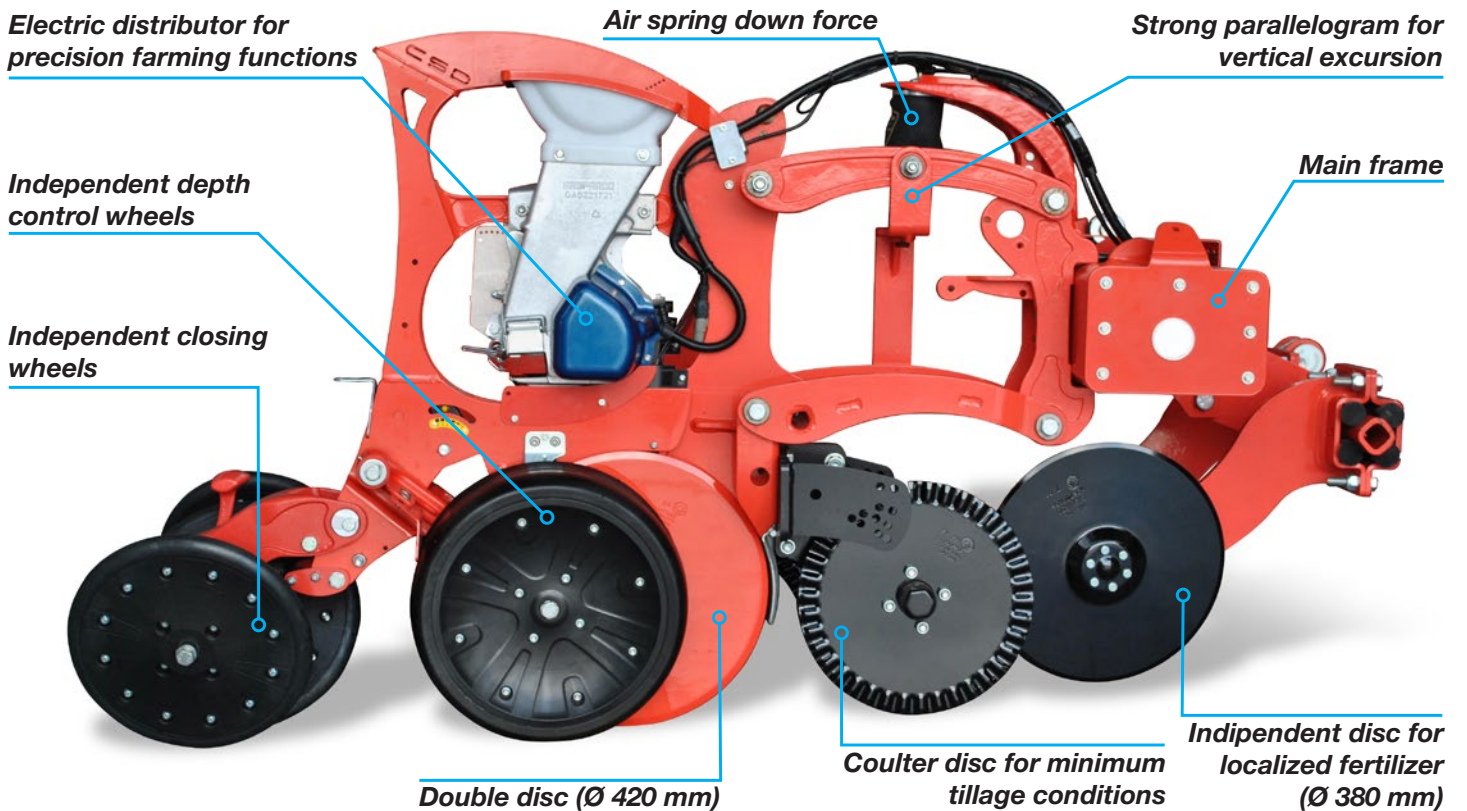

#### **ISOBUS technology**

- ISOTRONIC electric unit transmission: easy calibration and low maintenance
- All operations controlled by one screen: increased comfort
- GENIUS MASTER planting management system
- Precision farming functions: variable rate and section control
- GPS predisposition for automatic guide

## JULIA
